

PUCARA ALLEGRO

IAR 22107 (SW suri male by ILR Pperuvian Cadete G4576 (W)) b 7 July 1998

Summary

This analysis is prepared for Jeff McNeill of Tambo Downs Alpacas.

* * * * *

Pucara Allegro is a SW male suri certified for stud duties in Australia on 1 May 2000. At the time of writing, he has 172 registered crias in Australia and New Zealand.

Show Ring Performance

Allegro (and his fleeces) went to show in 1998 and, from the start, he was a good performer under a range of judges. Probably his best result was to be named Reserve Champion Suri Fleece at the prestigious Royal Melbourne Show of 2000. After 2000, his show successes came mainly as a sire and he has taken out numerous suri sires progeny awards in both Australia and New Zealand. These are his major awards:

2nd SM12-18W Melbourne Wool 1999; 2nd SM12-18W Royal Melbourne 1999; Reserve Champion Suri Fleece Royal Melbourne 2000; 3rd SF19-18L National 2000; 1st Suri Sires Progeny Whittlesea 2003; 1st Suri Sires Progeny Red Hill 2003; 2nd SF19-18 Royal Melbourne 2000; 3rd SFI18-30L National 2001; 1st Suri Sires Progeny Traralgon 2002; 2nd Suri Sires Progeny Royal Melbourne 2003; 1st Suri Sires Progeny Berwick 2003; 2nd Suri Sires Progeny Royal Canterbury (NZ) 2003; 1st Suri Sires Progeny Nelson (NZ) 2006; 3rd Suri Sires Progeny Burnie 2006

Sire Line

Allegro is one of just six sons of the US-bred ILR Pperuvian Cadete G4576 (S) (W) to have gone to stud in Australasia and is the only son of Cadete to have made a significant local mark as a sire. The only other Cadete sons to produce show performers has been Jingana Vishnu (S) (SW), sire of:

Jingana Lakshmi (S) (SW) 98979 4/1/06. 4th SF6-12F Royal Melbourne 2006; 2nd SF6-12W/F Whittlesea 2006

DISCLAIMER

These comments are made on the premise that show results are an independent, objective and accurate manner of assessing the quality of alpacas. This approach is not universally accepted, as there are many reasons why an alpaca might not be taken to show. Also, some critics suggest that judges tend to make assessments on “fashionable” criteria, which can change from time to time. So, there are arguments against using show results, and these should be acknowledged.

We have physically inspected very few of the animals assessed and are unable to make any comment on factors such as fertility, fitness, size and colour (some colour descriptions are inaccurate). Those alpacas receiving show awards at any level are assumed to have an acceptable conformation, free from disqualifying faults.
